Declaration

As permit-holder for the film production:

.....
(Description and date of film production)

I declare and undertake the following:

1. I confirm that I am aware that the film shooting represents a special use as specified by the Federal Highways Act (FStrG) and the Berlin Roads Act (BerlStrG).
2. As permit holder, I must reimburse road-works authorities for all costs that arise from the special use. As requested, I must also reimburse the responsible agencies for any expenditures related to special measures taken in connection with the film production. I am aware of my statutory obligations in this regard under the FStrG and the BerlStrG.
3. Following their official determination or as an advance payment, I will promptly pay any special-use fees requested by the road-works authorities, a security deposit if required, the traffic-control office's permitting fee, and any other fees and costs.
4. I am aware that the road-works authorities and traffic-control office make no warranty that the streets and related equipment can be used to an unrestricted degree in the course of the special use. Neither I nor any other participants in the film work are entitled to derive damage claims against the federal state of Berlin on these grounds.
5. Road-works authorities take on no liability associated with the breach of safety obligations within the context of the special use.
6. I have been informed of the required extent of liability insurance or if applicable the necessary accident-insurance cover for events as specified by the national administrative regulations relating to § 29 Par. 2 of the Road Traffic Act (StVO). I will make available or have already enclosed a certification attesting to the insurance coverage required by the permitting agency.
